## COUNCIL DEFERS DEFINITE ACTION

Petitioners for Annexation Must Submit Plats of the Territory Under Consideration.

## HOGS AND SHEEP IN STREETS

Complaint Received From Residents In Northwestern Section Of the City.

The petition of residents of Waterford and Sugar House for annexation to the city of Salt Lake were heard before the joint council committee on municipal laws and improvements at a meeting held Thursday evening, but owing to the fact that no maps had been prepared and submitted with the petitions no action could be taken by the committee, and the petitions were referred back for amendment before they are considered further.

**Charles Buckle, Dr. Brown, George Grey, C. L. Evans and John Green** appeared before the committee in behalf of the residents of Waterford, 175 of whom had signed the petition for annexation. The portion desired to be annexed by these petitioners lies between Third East and Fifth East, and from Eleventh South to Twelfth South street.

**Charles Smith and Albert Freeman** appeared in behalf of the residents of Sugar House. They ask to have the territory bounded by Seventh East and Eleventh East, and running from the present city limits to Twelfth South street, annexed to the city.

The firm of Kimball & Richards asked the council to annex a strip of land lying east of the Westminster Tabernacle between the Fourteenth Street and between Twelfth and Thirteenth South streets. The firm guarantees 100 homes will be started within a year after the strip has been taken in by the city.

All the applicants had failed to prepare maps and plats and when this preliminary hearing had been attended to the petitioners may return with the assurance of action by the council committee.

**Sheep and Hog Nuisance.**

The markets committee listened to the complaints of a number of residents of the northwestern portion of the city, who are imposed upon by the sheep and hogs of neighboring slaughter houses trampling down asphalt paving the streets, causing great inconvenience. The places complained of are located near Eighth West and Seventh North street, and are known as the Pawpaw and Hepworth slaughter houses. The residents claimed that the pigs and sheep from these places run at large through their yards, destroying their property. Protests to the owners of the houses, however, if no available means could be found, and some of the property owners have even gone so far as to shoot some of the trespassing animals. It was claimed that bands of sheep of from 300 to 400 have been turned loose for a week or more at a time, and that the nuisance had become unbearable. Complaints have been unavailing in all departments, and the injured parties finally appealed to the council committee. They were advised the matter would be called to the attention of the police department, with instructions that the law relating to animals runnings at large be enforced.

The engineering and sewage committee took favorable action on the petition to connect with the sewer system, to the west of the city, and the police department, with instructions that the law relating to animals runnings at large be enforced.
